

Deja

Deja is a resilient, smart, and creative 15-year-old girl! Deja's favorite class at school is autobody and she hopes to become a mechanic when she's older. Deja enjoys drawing, crocheting, playing games, going to the mall, and ice skating. Deja hopes to be able to travel when she is older and would love to go to Hawaii, Mexico, and Europe. Deja would enjoy an adoptive family who spends time together doing activities such as playing games, arts and crafts, or watching movies.

Deja's team recommends a one or two-parent household that is able to provide consistent routine and structure. There are no concerns with other children or pets in the home. Deja's culture is important to her, so it is important an adoptive family is able to help support Deja in staying connected to her culture. Deja's team is currently accepting inquiries nationwide.
