

# - Noah -

## Meet Noah!

12-year-old Noah is a ball of fun-filled energy! Noah enjoys playing with his friends and feeling safe with his caregivers. Noah is loving, talkative, sweet, and helpful. He has a sense of when someone else is upset or disappointed which can make him feel sad for them. Noah loves to ask questions and talk about anything that is going on. He can get bored quickly if he does not enjoy the activity he is doing. Noah enjoys playing with Legos, coloring, and being outside riding his new bike. Noah is not a picky-eater and really loves chef salad, though he also enjoys eating chicken nuggets, macaroni and cheese, and pizza! Noah is a morning person and enjoys a plate of pancakes to get his day started. Noah can be shy at first but likes to crack jokes and asks many questions once he has warmed up to you!

Noah would do best in a two-parent household that is able to provide consistent structure and routine. There are no concerns with pets or other children in the home. Noah's team is currently accepting inquiries from families nationwide. Noah has connections in North Dakota that the team would like him to maintain.
