

# Oliver

Meet 14-year-old Oliver!

Those that know Oliver would describe him as kind, creative, and smart! In his free time, Oliver enjoys reading. A couple of Oliver's favorite series is Harry Potter and Percy Jackson. He also enjoys listening to music, drawing, playing video games, watching movies, building Legos, and playing card/board games. Oliver's favorite season is summer, where he loves to go swimming and go on walks! Oliver thrives with one-on-one attention, and he would love for his adoptive family to have pets.

Oliver's team is seeking a family that will be able to provide him with the consistency, stability, and nurturance that he needs. The team is recommending a one or two-parent household, although Oliver may do better in a two-parent household or if a single parent, a female caregiver is preferred. Oliver would do best in a home where he is the only child or the child with the highest needs. There are no concerns with pets in the home. The team is currently accepting inquiries nationwide.
