

JACOB

Jacob is a creative, kind, and social 15-year-old boy! Jacob enjoys drawing, playing video games with his friends, reading, and building Legos. Jacob also loves to read science fiction and anime books. Jacob would like to have a career with computers and wants to learn how to code his own video games. As Jacob ages, he would like to travel and live in a big city. Jacob enjoys spending one-on-one time with others and has a preference to have his own room in his adoptive home.

Jacob's team is recommending a two-parent household that is able to provide consistent routine and structure. Jacob would do best in a household with other children who are the same age or older than Jacob. There are no concerns with pets in the home. Jacobs' team is currently accepting inquiries nationwide.
