Welcome Prince and Johnneise!

Prince is a 14-year-old boy that loves to play basketball, hang out with his friends, and listen to music. He is currently participating in track and enjoys competing in races and spending time with his friends. He has an outgoing personality and makes friends quickly. Prince is excited for the nicer weather to spend more time outside and not having to wear a coat. Prince enjoys eating southern food like fried chicken, gumbo, and hot dishes. Prince describes himself as funny, athletic, and caring.

Johnneise is a fun-loving 13-year-old girl with an outgoing personality. Johnneise enjoys activities such as volleyball, basketball, spending time with friends, and listening to music. She is currently participating in track and enjoys competing in races and spending time with her friends. She loves all animals and would enjoy having a pet to care for. Johnneise describes herself as respectful, loving, and caring. She may be shy at first, but after building a relationship and feeling comfortable, Johnneise is talkative and enjoys trying new activities.

Prince and Johnneise love spending time with each other and are each other's biggest supporters. They are playful, fun, and you will often hear them laughing hysterically when they are together.

Prince and Johnneise's team is looking for an active, skilled, and supportive two-parent household. They both would do well with siblings in the home that are over the age of 5. Prince and Johnneise have identified wanting to live in a bigger city where they can express their culture and participate in more activities. Their team is accepting inquiries nationwide, although it is important for family connections to be maintained in North Dakota.
