**Please meet Reba!**

**Reba is a bright and joyful 8-year-old who delights in a wide range of activities, especially playing with her dolls and Barbies. She also loves expressing her creativity through art projects and enjoys interactive games such as matching, UNO, and puzzles. Reba is currently in the second grade and enjoys the routine of school. Reba thrives in social environments and truly shines when she's surrounded by people.**

**Reba's team is looking for a two-parent household that is able to provide consistent structure and routine. It is recommended that Reba be the only or highest needs child in the home. There are no concerns with pets in the home. Reba's team is currently accepting inquiries from Midwest families at this time.**
