Alex

Falling into fall with Alex!

Alex had an amazing summer riding his electric scooter around town, going to the YMCA, and spending time with his siblings and friends. Now that he is back at school, he is enjoying reconnecting with friends and participating in activities. At 16, Alex takes pride in his growing independence. He can prepare meals, do his laundry, and manage his schedule. Those who know him describe him as outgoing, athletic, kind, funny, and hard-working. Staying active is important to Alex, and he enjoys working out and preparing healthy meals. He recently passed his permit test and appreciates opportunities to practice driving. When spending time at home, Alex likes watching YouTube videos, chatting with friends, and playing video games. Alex has grown tremendously and hopes for a consistent, supportive family who will celebrate his progress, encourage his interests, and stand beside him as he moves through his teenage years and into adulthood.

Alex's team is considering two-parent families who can offer consistency, encouragement, and lasting connection. He enjoys animals and helps care for the dogs in his foster home. Alex would also enjoy having other children in the home to spend time with and play games. Maintaining meaningful relationships with his two older siblings is important to him, and he hopes for a family who will support those connections. His team is currently seeking a family in Bismarck, North Dakota, or a nearby community.
