ALISTER

Meet Alister!

Alister is energetic, social, and kind! In his free time, 13-year-old Alister enjoys playing video games, card games, building Legos, and playing outside. Alister enjoys being outside and spending his time riding his scooter, spending time with his friends, and jumping on the trampoline. Alister's favorite movies are Spiderman and the Transformers movies. Alister's favorite classes are science, math, and art. Alister wants to become either a surgeon, FBI agent, or a biologist when he grows up. Alister also wants to travel when he's older. Alister enjoys being creative through drawing and painting. Alister has a preference to have siblings and pets in his adoptive home. Alister also enjoys spending one-on-one time with others. Alister would love to spend time with his adoptive family watching movies, playing board games, and playing outside!

Alister's team is recommending a one or two-parent household that is able to provide consistent structure and routine. The team is open to all two-parent households, regardless of gender, although it is believed that Alister would do best in a male/female or a male/male household. There are no concerns with other pets or children in the home. Alister's team is currently accepting inquiries nationwide.

If you are interested in learning more about Alister or have any questions, please contact Inquiry@catholiccharitiesnd.org. Be sure to watch Alister's Reel Hope video on the CCND website!
