

Caius

Caius is a kind, cheerful, and creative 9-year-old with a playful spirit. He enjoys staying active by playing soccer, swinging, and jumping on a trampoline. When he is ready for a quieter activity, Caius likes playing video games, coloring, creating arts and crafts, and watching movies and shows such as Sheriff Labrador. He may be a little reserved when meeting someone new, and once he feels comfortable, his bubbly and talkative personality shines. Caius enjoys spending time with other children and caring adults, and he also appreciates having quiet time to recharge after a busy day. At school, his favorite subject is math.

Caius would thrive with a committed family who will encourage his interests, support his active lifestyle, and give him both opportunities to connect and space to recharge. He enjoys being around other children and may appreciate having siblings or other positive peer connections. Caius enjoys being around animals and has especially enjoyed helping care for reptiles. His team hopes to find a family in or near North Dakota so he can maintain important connections, and families nationwide may also be considered when they can best support his needs and well-being.
