

odin

Meet 9-year-old Odin!

Odin is kind, thoughtful, smart, and loves to help others. He enjoys staying active, whether he's playing outside, swimming, or playing basketball, soccer, and his favorite, cornhole! He also likes playing with his toy cars and Beyblades, reading, doing puzzles and art projects, and playing board games. Odin enjoys cooking, too. Red beans and rice is one of his favorite meals, and he also loves fish, homemade pizza, waffles, and pancakes. He enjoys opportunities to play, create, and share activities with others.

Odin's team is open to a one- or two-parent household that can provide consistent structure and boundaries. He would do best as the youngest child in the home. Older children and pets would be welcome, and Odin would love to have siblings in his adoptive family. His team is accepting inquiries from Midwestern states, with a preference for a family in North Dakota.
