Florence and Rosie

Meet Florence and Rosie!

Florence is a happy, creative, quiet, and caring 12-year-old. She enjoys coloring, watching movies and shows, catching grasshoppers outside, spending time with her sister, and playing video games. Florence's favorite subject in school is math, and her favorite colors are pink, purple, brown, red, and hot pink. She also has a deep love for animals, especially baby kittens, otters, owls, and eagles. Her dream vacation would be to visit the beach and see the ocean.

Rosie is a cheerful, intelligent, artistic, talkative, and thoughtful 10-year-old. She enjoys playing outdoors, riding her bike or scooter, and catching grasshoppers. Her favorite school subjects are Native American history, science, and social studies. Rosie loves spicy food and enjoys trying new dishes. She also likes playing on her Nintendo Switch. Her favorite movie is Horton Hears a Who!, and her favorite television show is The Middle. Rosie enjoys learning about animals, especially prairie dogs and otters. Her dream vacation would be to visit New York City and see Colorado.

Both girls love spending time together and describe each other as best friends. Florence and Rosie's team is open to inquiries from one- or two-parent households with strong parenting skills and a strong support system. The girls would do well in an adoptive home that has other children or pets. To help the sisters maintain their established connections, the team prefers a family located in or near North Dakota.
